

COMPACT ROTARY FILLER CAPPER

PRESSURIZED TANK

- > Smaller tank
- > Consistent product flow rate even with viscosity variations
- > Reduced amount of wasted product
- > More economical cleaning
- > No product contamination with closed tank system

CLEANING SYSTEM

- > Customized cleaning programs (available)
- > Reduced volume of wasted product and cleaning solutions

ATEX /
Explosion
proof design

FILLING

- > No drips
- > Weight-filling system
- > Legal Metrology available
- > Very high accuracy
- > Weighing accuracy not affected by temperature variations
- > Product savings due to no overfilling

CAPPING SYSTEM

- > Compact capping system
- > 2 capping heads
- > Checking for cap presence and correct positioning

OUTPUTS

- > Up to 40 CPM

CONTAINERS

- > from 500ml to 20L

CAPS

- > screw cap, flexspout, push on cap

HMI

- > Traceability
- > User-friendly interface
- > Programmable recipes
- > Maintenance indicators

TOOLING SYSTEM

- >> «Click & Play»® system
- > Dedicated color tooling for specific containers
- > Tooling switch requires no tools
- > Quick tooling changeovers

NITROGEN PURGING

- > Option available
 - Product protection after filling
 - Prevent container collapse
